ABSTRACT

These data are derived from reports received from each of the thirty community colleges of the State University of New York. Total system enrollment statistics are presented by credit course enrollments for 1948-76, by age and sex for 1975, by student residence locations for 1959-75, and for transfer credit students for 1969-75. Enrollment statistics for individual colleges are presented by credit course enrollments for fall 1976; for full-time equivalent students for 1975/76; by program level, sex and racial/ethnic group for 1976; by student residence locations for 1975; for transfer credit students for 1975; and for full-time and part-time students for fall 1976. Other statistics include family income of students for 1974/75, attrition and retention rates, and student/faculty ratio for 1974-76. Budgetary information includes revenue by source and expenditures by function for 1975/76, total capital expenditures, administrative salaries, faculty ranks and salaries, fund raising results for 1976, and tuition and charge-back rates. In addition, library collection data for 1974/75 and numbers of employees in 1976 are given. Names of system officers, board of trustee members, and college addresses with names of the president and board chairman complete the document. (RT)

Foreward

This Compilation of Statistical Data describes some of the important trends and current activities of the thirty community colleges of the State University of New York. The data is derived from reports received from the colleges by several offices in SUNY Central Administration in Albany. It is the hope of the Office for Community Colleges that educators and all other interested people both in and outside of the State of New York will find this information useful.
